

Hands-on Training on "Microbial Culture Techniques"

The Institutional Biotech Hub of Bhattadev University, in collaboration with the IQAC, organised two-day hands-on training programme on "Microbial Culture Techniques" on 25th and 26th September 2024. The event was organized as an activity of the project entitled "DBT-NER Institutional Biotech Hub at Bhattadev University, Bajali, Assam (Phase II)", funded by the Department of Biotechnology, Government of India.

Dr Dipika Kalita, Head of the Department of Zoology and Coordinator of the Biotech Hub welcomed the participants and describes the objectives of the event. Honourable Vice-Chancellor of Bhattadev University, Professor (Dr.) Dhanapati Deka inaugurated the programme with a brief speech on importance of microbes and their uses in research and development.

More than 45 students and researchers from the Department of Biological Sciences of Bhattadev University and from its affiliated colleges were present in the programme. On the first day Dr Debajit Kalita, Assistant Professor, Assam Royal Global University gave his presentation on "Spectrum of Microbial Culture: From basic Principles to Advanced Techniques". He also demonstrated about the various techniques of microbial culture. Dr Jitumani Rajbongshi, Assistant Professor of the Department of Chemistry, and Dr Puranjoy Mipun, Assistant Professor of the Department of Botany, Bhattadev University provided additional insights and hands-on demonstrations.

The programme was concluded with a group discussion, allowing attendees to reflect on their learning experiences, and certificates were distributed to all participants.

Dr Dipika Kalita who coordinated the event, expressed gratitude to all involved for making the programme a success.

Some Glimpse of the Program
